

## Modern Slavery Act 2015 Policy

INTRODUCTION FROM THE BOARD OF METHODS BUSINESS AND DIGITAL TECHNOLOGY LTD AND METHODS ANALYTICS LIMITED

Methods is committed to maintaining the highest standards of integrity and ethical conduct in all its business activities. We fully support and comply with the UK Modern Slavery Act 2015 (the “Act”), which requires certain businesses to publish an annual statement detailing the steps they have taken to combat modern slavery and human trafficking in their operations and supply chains.

We are committed to ensuring that modern slavery, forced labour, and human trafficking do not occur in any part of our business or supply chain. This statement sets out the steps we have taken in the financial year ending 31<sup>st</sup> December 2024 to identify, prevent, and address modern slavery risks.

***Any concerns from any of Methods' colleagues, contractors, associates, or other stakeholders regarding a likely risk of, or actual, breaching of our policy or the Legislation must be raised to the Chief Operating Officer at the earliest opportunity.***

### Organisation's structure and business

Methods Business and Digital Technology (Methods) and Methods Analytics are supported by centralised operations and compliance that assure that Methods and Methods Analytics meet legal and industry requirements to prevent and report Modern Slavery. We are some of the UK's leading Digital Transformation partners for Public Services with over 34 years' experience in the sector collectively. Methods and Methods Analytics delivers IT Services to a range of Central Government departments and the wider public sector; to transform the way the Public Sector operates in the UK. Our mission is to help safeguard public-facing services and apply latest digital thinking and delivery disciplines to make sure the future of Public Services is citizen-centric.

LONDON | BIRMINGHAM | BRISTOL | EDINBURGH | MANCHESTER | SHEFFIELD

---

Our practice is focused into four broad competency areas, as illustrated below.

Our delivery model comprises employed colleagues; selected associates; contractors; and partner firms (most of which are SMEs) to deliver collectively our products and services. This business 'ecosystem' approach means we always have both capacity and capability, regardless of how busy we are, including access to highly specialised resources when clients require them.

## OUR SUPPLY CHAIN

Methods and Methods Analytics have a long history of working with partner organisations and associates and our business operating model relies on an integrated and seamless service to clients, regardless of which mix of resources is delivering that service.

At any one time, we will have circa 40 Partner Organisations (most of whom are SMEs) and around 141 contractors, as part of our supply chain, working alongside Methods' and Methods Analytics own colleagues as we deliver our agreed outcomes.

Our supply chain is underpinned by a rigorous contractual process which means that every partner has either a Partner Agreement or a Framework Consultancy Agreement in place. Both documents have specific obligations to comply with our Anti-Slavery and Human Trafficking Policy. Each partner contractually warrants that they will comply with this policy. Furthermore, we have rights of audit to enable us to ensure the policy is being enforced, which we exercise. Each of our associates and contractors have either an associate or Contractor contract which contains a copy of this policy.

Our partners, contractors, and associates are carefully selected and each of them is allocated to an experienced Methods' and Methods Analytics colleague to maintain effective communication and assess their business performance on our projects.

## PROCESSES AND ACCREDITATION

As an experienced and mature service providers, all of our services are underpinned by robust ISO9001:2015 certified processes and a variety of industry accreditations. These currently include: ISO9001, ISO14001, ISO27001 and Cyber Essentials Plus.

Additionally, we are aligned to the following organisations:

All of our accreditations are built into an internal Quality Management System which defines the control systems and quality procedures used throughout the company to ensure that we provide an excellent quality service. It is audited internally throughout the year and externally on an annual basis by [DNV](#)

## OUR ANTI SLAVERY AND HUMAN TRAFFICKING POLICIES

We are committed to ensuring that there is no modern slavery or human trafficking in our supply chain or in any part of our business. Our Anti-Slavery Policy reflects our commitment to acting ethically and with integrity in all our business relationships, to implementing, enforcing effective systems, controls to ensure slavery and human trafficking is not taking place anywhere within our supply chain. All suppliers are required to comply with our Supplier Code of Conduct, which sets out expectations on ethical behaviour, including the prohibition of modern slavery and human trafficking. Along with our other policies we have implemented a whistleblowing policy that allows employees, contractors and other stakeholders to report any concerns regarding potential instances of modern slavery or human trafficking confidently and without fear of retaliation.

Our policies include a plan to audit suppliers to ensure adherence to our supplier requirements and ensure that our supply chain is free from slavery and human trafficking.

## DUE DILIGENCE PROCESSES FOR SLAVERY AND HUMAN TRAFFICKING

As part of our initiative to identify and mitigate risk in this regard, we have established systems designed to:

These processes and checks are managed through the relationships between Methods' and Methods Analytics colleagues and their allocated partners, contractors, and associates.

## SUPPLIER ADHERENCE TO OUR VALUES AND ETHICS

We recognise that modern slavery is global issued that can affect various parts of the supply chain. We have zero tolerance of slavery and human trafficking. To ensure all those in our supply chain and contractors comply with our values, we have a dedicated compliance support team which requires involvement from the following departments to support and ensure our adherence to the Modern Slavery Act 2015:

## MEASURING EFFECTIVENESS AND STEPS BEING TAKEN

Methods and Methods Analytics will continue to follow its due diligence processes of auditing suppliers and partners during the coming year. We aim to audit at least 10% each year. With select suppliers this will go beyond audit and contractual compliance and will seek direct engagement with workers on sites. As part of our ongoing commitment to combating modern slavery, we will continue to evolve our practices to ensure that we remain proactive in addressing this issue.

## TRAINING AND AWARENESS

To ensure a high level of understanding of the risks of modern slavery and human trafficking, in our supply chains and our business, we provide regular training to our colleagues. We also require our partners to provide training to their staff, suppliers and providers in their respective supply chain.

*This statement is made pursuant to section 54(1) of the Modern Slavery Act 2015 and constitutes our slavery and human trafficking statement for the financial year ending 31<sup>st</sup> December 2024.*
